What is an Informed A.A. Group Conscience - November 2018

The group conscience is the collective conscience of the group membership on an issue or idea <u>before</u> definitive action is taken. This is achieved by the group members through the sharing of full information, the sharing of individual points of view, and the practice of our A.A. principles. To be fully informed requires a willingness to listen to minority opinions with an open mind and even change your mind after hearing their position.
